

# Datasets to build your Analytics Project

@SUDHERSAN K |

Kaggle

Kaggle is a well-known platform for data science competitions and provides a variety of datasets across different domains.

**Website:** <https://www.kaggle.com/datasets>

@SUDHERSAN K |

Data.gov

The U.S. government's open data portal provides datasets on topics such as economics, health, environment, and more.

**Website: <https://www.data.gov/>**
